SCANSIONA LA VERSIONE DIGITALE

A B O U T MIZUNC

FOUNDED IN OSAKA JAPAN

Rihachi Mizuno and his younger brother Rizo founded "Mizuno Brothers Ltd." in Kita Ward, Osaka. The shop sold western sundries, including baseballs. The shop's mark when it was first founded was the "Izuhi."

MIZUNO STARTS MANUFACTURING TRACK AND FIELD CLEATS

When Mizuno first began producing track and field cleats, the material of the shoes was leather, and long heavy pins were used as spikes. Those are the item which has been supported by many top athletes since then and was the starting point of Mizuno's growth into what it is today.

LAUNCH OF RUNBIRD SHOES

That is a mark of the shoes which expresses "an orbit of a planet." It is named "RunBird" for its shape. Now it is the corporate logo of Mizuno and carries a vital role as the symbol of the company's brand. Exactly after two years are placed on the market the shoes "Runbird Athletics"

NEW RESEARCH STUDY TECHNOLOGY

A new specialized scientific laboratory is established, which has now become the technology development division.

GLOBAL ENVIRONMENTAL PROTECTION ACTIVITY "CREW 21"

Crew21 (Conservation of Resources and Environmental Wave21) out of the wish to play a role as a crew member of "Spaceship Earth" and to carry out activities to protect resources and the environment. This is when the company's activities to realize a sustainable world started.

NEW TECHNOLOGY "MIZUNO WAVE"

Originally developed in the 1980s Mizuno launches innovative wave technology. Unique features provide cushioning and stability.

A HUNDRED YEARS OF MIZUNO

Mizuno celebrates its centenary by integrating all brands in all categories into one visual identity: the Runbird.

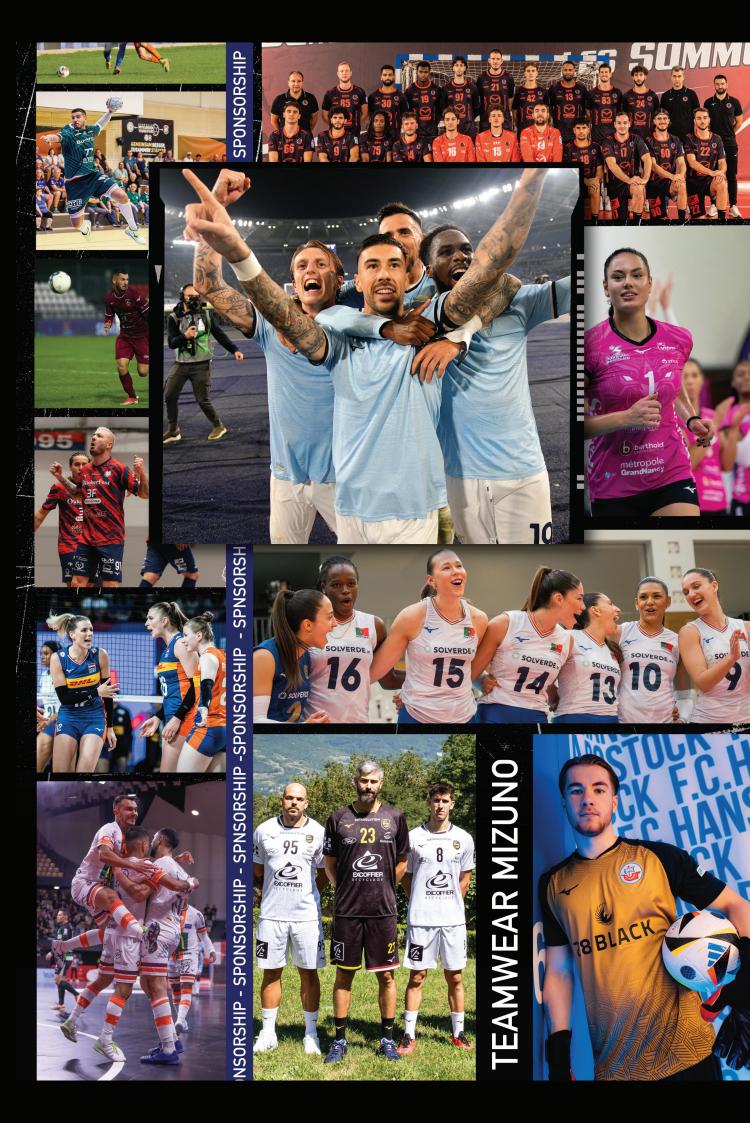

THE FIRST FLAGSHIP STORE IN EUROPE.

Europe's first flagship store is opened in Turin. It is an exhibition space directly inspired by Japanese minimalist lines.

INNOVATION CENTER "MIZUNO ENGINE"

The new Innovation Center "MIZUNO ENGINE" on the premises of its Osaka Head Quarters to strengthen its research and development capabilities and accelerate the creation of social innovation through sports. The Innovation Center is a facility that brings special equipment together in one place for "measuring", "creating", and "testing", which are the basis of research and development.

#### WHAT IS SUBLIMATION

**Sublimation** is a process of transforming of inks that, upon coming into contact with heat, pass from the solid state to gaseous state (sublimate). The transformation allows the ink to bond in a stable manner to the polyester

# IK-OME surface. -ABOUT SUBLIMATION

#### ADVANTAGES OF SUBLIMATION.

Once the color has combined with the polyester in a permanent way, it will become resistant to scratches and decay of the color. The end result provides a surface perfect without relief or thickness, breathable, washable, durable and that preserves the inherent texture of the fabric used. Sublimation printing is convenient in the case of application of multiple prints.

#### SPECIAL ATTENTIONS TO THE PRODUCT

In order not to reactivate the sublimation process which would result in a possible migration of color, it is recommended to avoid washing at high temperatures and the use of the dryer.

**D**2

### HOW TO ORDER

from pantone ( C ) or pick a color reference from Mizuno color card.

Choose a color code

FONT NAME FONT NAME FONT NAME

Choose a Mizuno standard font or provide a file with the desired font.

Our designer will provide a first concept file for your approval. After this step you will recieve final "Flat Artwork" with measures.

Before the delivery you will receive a notification containing the tracking number. Choose the model and select the graphics you desire.

•	

DESIGN BRIEF

Provide vector file logos (.ai/.eps/.pdf)

If applicable, provide name and number list.

Get in touch with your sales contact or write an email to our office to require the order form in excel format. As soon as possible you will recieve the order confirmation. Our team is available to provide information about the correct way to fill in the form.

#### **DIFFERENT LOGO PRINTS**

At customer request, with a minimum of 500 pieces, it is possible to make your BADGE (in vector) on a patch available in a variety of materials.

You will be provided with a quote with the cost of the implant and the individual badge, as well as the timeline for production.

**EMBROIDERY** Traditionally used for club crest on inline and cut and sewn garments.

**PRINT** High definition print, is ideal for sponsor logos, names and numbers.

#### SUBLIMATED

Digitally printed design on a paper transferred onto (usually) white polyester material using high temperature which helps to integrate ink to the fabric

#### HEAT SEALED

Thermo-adhesive applications, available in few different materials.

Mizuno **fluorescent colour chart** has to be requested directly to the designers.

#### USEFUL INFORMATION

#### MINIMUM ORDER QUANTITY

The minimum order quantity is 10 pieces each graphics (except for soccer and handball goalkeeper and volleyball libero player).

Orders of less than 10 pieces will incur a 50% surcharge on the unit price.

The Mizuno team recommends purchasing extra items in the first order to ensure a safety stock.

#### CONTACTS

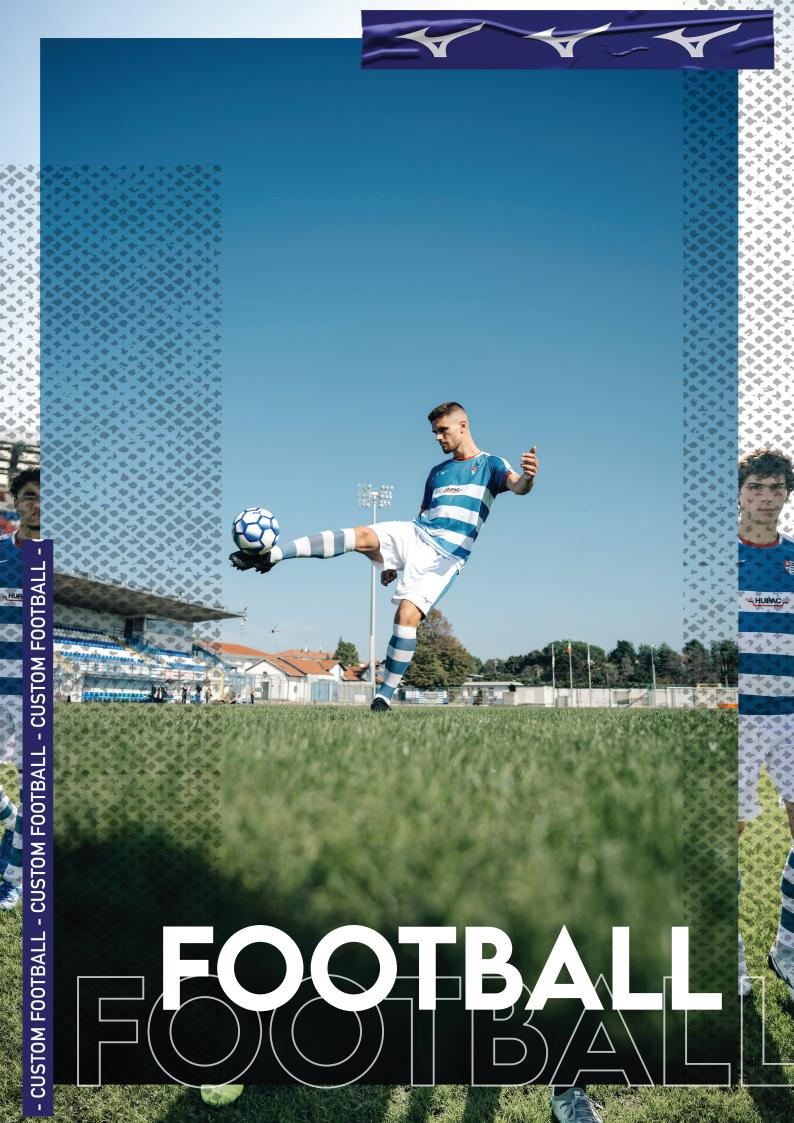

#### For new projects please referes to the area agent or write a mail to: sublimatico.it@eu.mizuno.com

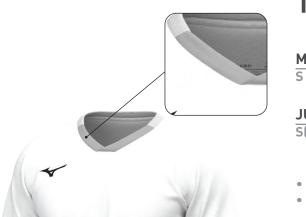

Printing techniques do not allow for a perfect reproduction of colour tones, which should therefore be considered as purely indicative. Mizuno accepts no liability for possible inaccuracies in this catalogue due to printing or transcription errors or for any other reason. Mizuno also reserves the right to make changes to improve the products without prior notice.

The price list and items may be subject to change without notice. Prices shown are public price list including VAT.
